P R O F I L E

I'm a front-end developer who has a results-focused attitude to creating SPA, using React(JS/TS), Redux. Throughout the year I have been striving to develop as a specialist. Experience in creating, maintaining and improving web applications from scratch. During development, I have acquired strong analytical and troubleshooting skills. I believe that I am a good team player with a strong ability to learn and adapt new skills to your needs. I am full of energy and , skills and willingness to learn any other technologies. In my spare time I also improve my English and develop apps for open-source.

E X P E R I E N C E

● Front-end Developer

10.2021 – present | Freelance

- Creation of applications for technical specifications.
- Implementation of new functionality in projects: registration / authentication / pagination, etc.
